

# Business Mobile Banking: Touch ID®

BAC Community Bank

## QUICKLY ACCESS YOUR MOBILE BANKING APP WITH YOUR FINGERPRINT.

If Touch ID® has been enabled within the Device Settings of your compatible iPhone or iPad, you have the option of logging in to BAC Business Mobile Banking by using a saved fingerprint.

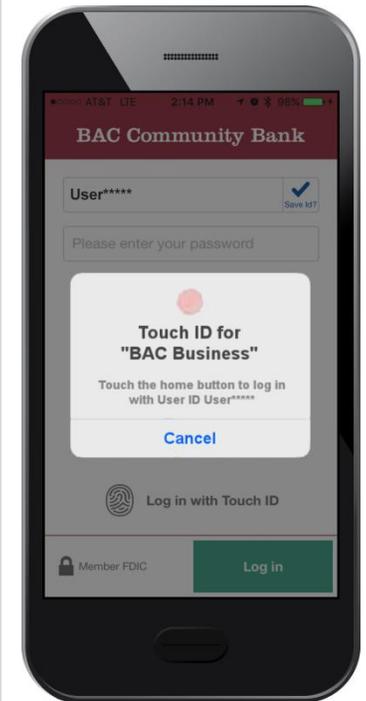

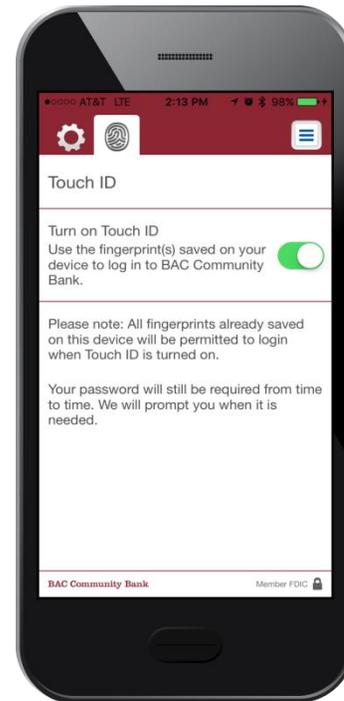

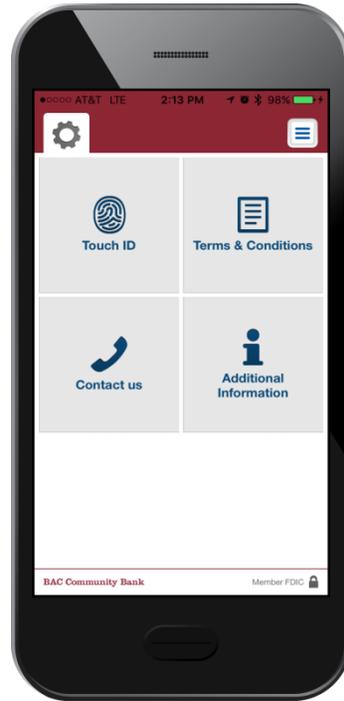

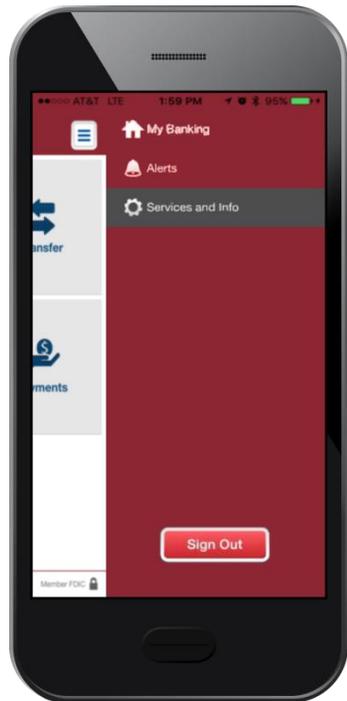

You can set this up from the login page or from **Services and Info** tab inside the 3-bar menu icon in the upper right corner of the app.

Tap the **Touch ID** menu button and click **Turn on Touch ID**.

All saved fingerprints on your device can now be used for logging in to BAC Business Mobile Banking.

**Tip:** When logging in using Touch ID® you may be asked to enter your password to complete certain types of transactions or activities.

After Touch ID® has been turned on for your mobile banking app, you will be automatically prompted for a fingerprint when the app launches. When this occurs, simply touch the **Home button** of your device.
